Toronto, Montreal and Vancouver use official Statistics Canada data for 2004 onwards, but FP Markets data for 2003 and previous years.

Note: Retail sales estimates reported in "FP Markets" reports were estimated as follows: Strategic Projections Inc. produces national and provincial economic models which were used by MapInfo Canada in conjunction with a special small area retail sales allocation model. The MapInfo model also made use of spatially aggregated estimates of retail sales by detailed kind of business (NAICS for 2006 and 2007, SIC for previous years).
